THE BEST ALL-TEMPERATURE BALL

The Worth Hot Dot™ softball is designed to give players consistent hit distance at all temperatures. This is especially true in hot weather conditions, when other balls dramatically drop in performance and distance.

OTHER MODELS GET MUCH SOFTER MUCH QUICKER WHEN TEMPERATURES RISE.

THIS SPECIAL CORE FORMULATION GIVES A C.O.R.* THAT ACTUALLY INCREASES WITH THE TEMPERATURE!

*Coefficient of Resilution

SUPERDOT™
3-PIECE TECHNOLOGY

A step above competitors 2-piece balls. The inner layer consists of Worth's proprietary mixture of polyurethane and isocyanate blended together and perfected in the Super Dot™ formulation over the years for consistent spin and durability. Add to this the C-LOK™ adhesive and moisture barrier second layer technology that locks on the pro grade cover (third layer) to the core and it is easy to see why the Super Dot™ is the #1 selling brand of softballs.

WITH C-LOK™

C-LOK™ plus Worth's proprietary dense cell poly-core technology repels moisture and maintains higher compression.

WITHOUT

Balls without Worth's C-LOK™ and poly-core combination can absorb moisture and lose compression (go softer).
